

Evaluate MLOps Labs

A Serious Game for MLOps Stakeholder Engagement

What is it? A serious game where you act as a manager and negotiate with AI-driven stakeholders to resolve realistic challenges during the development of ML applications.

Your Task: Balance and increase competing metrics like Automation, Reliability, and Efficiency

Why Participate? Play a short (15-20 min) game session and answer pre-/post-questionnaires to help us evaluate the game's effectiveness and usability. No prior knowledge about MLOps required!
